

# Sidings

Great look with impressive results

## Product Description

Sidings by Ultracem represents an innovative generation of Fiber-cement elements, unique in the market and created for closure of facias and exterior walls. They are applicable to a wide range of finishes in residential, commercial, and industrial buildings. The use of material especially treated for minimizing the superficial absorption of water guarantees the stability of the product and allows executing projects under adverse weather conditions. For indoor and outdoor use.

## Types

TONGUE AND GROOVE SIDING

VICTORIAN SIDING

OVERLAPPED SIDING

TUDOR SIDING

## Sizes

- Tongue & Groove: 0.55" x 9.4" x 96.06"
